

SWIX®

Kikkan Randall U.S. Ski Team/APU
First U.S. womens world cup victory
Dec. 16, 2007 sprint win in Rybinsk, Russia.

SWIX TECHNICAL CLINICS 2008

Kevin Sweeney, National Director of Racing Services for **Swix Sport USA**, will be here to share with you the latest in product development from the world's leading manufacturer of racing wax, tuning tools and poles. This is your chance to learn exactly how to apply waxes, structure skis and fire questions at Kevin who has been in the industry for the last 14 years. Kevin has the latest information from the World Cup, as well as knowledge on how to keep it simple and have great kick and glide every time. Join us in this great opportunity to see for yourselves **Swix Sport USA's** commitment to excellence. Information you can use will include:

- Learn proper brushing & final base preparation featuring our new World Cup Oval Steel brush, the Oval Fine Steel and the Oval Wild Boar.
- Learn proper application of the new sensational Swix Cera Nova Overlays: the ultimate Swix Super Cera, the new Cera F Solid Turbo line FC7BS, FC8WS & FC10BS, and the new Cera F Rocket spray FC8A.
- Learn proper base layering for ultimate durability and speed featuring our new HF Black Wolf glide waxes.
